MEXICANS REVOLT; FIFTY DEAD

BATTLE FOUGHT ACROSS TEXAS
BORDER FROM DEL RIO AND
LONE STAR STATE.

CABINET MEETING IS CALLED

Revolutionists Attack Town, Burning
Officers' Quarters, Making Des-
perate Assault on Custom
House and Capture
Horses.

El Paso, Tex., June 26.—Mexican
revolutionists this morning attacked
the town of Las Vacas, across the
river from Del Rio, Tex., burned to
the ground the officers' quarters and
made a desperate assault upon the
custom house. In the battle that fol-
lowed 5,000 shots were exchanged.
The casualties, according to figures
furnished by the Mexican authorities,
will total half a hundred.

The attacking band cut all tele-
graph and telephone wires, captured
horses belonging to the Mexican cav-
alry and were repulsed only after a
hard battle. More serious trouble is
expected before morning.

Mexican Uprising May Be General.

San Antonio, Tex., June 26.—Las
Vacas, directly across the Rio
Grande from the city of Del Rio, Tex.,
this morning witnessed the second
battle of what may be the opening
of a general uprising against the
administration of President Diaz. The
revolution seemingly is not the work
of a band of irresponsible despera-
dos, for organization and leadership
are shown in the fact that the strat-
egy of warfare has been used and
the entire border country between
Del Rio and C. P. Diaz, in the state
of Coahuila, is cut off from com-
munication. All wires on the Mexico
side leading across the river have
been cut.

At 5:30 this morning a band of re-
volutionists numbering about 150 si-
lently stole upon the camp of the
Mexican cavalry at Las Vacas and
stole all of the horses, as well as
making a raid upon the ammunition
wagons. They were discovered just
as they were about to leave and a
pitched battle took place.

Party Takes Position on Hills Near
Tour.

More than 3,000 shots were fired
and several men were killed. One
wounded man made his way across
the river to Del Rio, but he re-
fuses to say whether he was with
the government forces or the re-
volutionists. One house was burned
during the attack and the firing con-
tinued until 10:30 a. m. when the at-
tacking party withdrew and took a
position in the hills back of Las Va-
cas.

REVIVAL IN NORTH ADA

Booming—House Full Last Night.
More Conversions.

Evangelist Jordan was greeted by
a house full of eager hearers last
night. A great sermon was preach-
ed and there were more conversions
at the close of the service. The ser-
mon was one of power—a striking
denunciation of the man who is try-
ing to run away from God and His
utter inability to do so. Great and
powerful conviction settled down up-
on the hearts of men and many had to
leave the church to keep from com-
ing forward. There were many re-
quests for prayer and after the audi-
ence were dismissed the altar ser-
vice ran far into the night. We are
confidently expecting one of the big-
gest days religiously tomorrow that
Ada has ever experienced. Following
are the announcements for tomor-
row:

Song service will begin at 10:30
and preaching promptly at 11 o'clock.
If you expect to hear the sermon
be at the church by 11 a. m. sharp.

Preaching for the young people
at 3 o'clock p. m.

Preaching at 8:30 p. m.

Come early, get a good seat and en-
joy the services.

No preaching at the First Metho-
dist church tomorrow morning or
evening. The pastor earnestly re-
quests his entire congregation to go
to the north side for both services.
Sunday school will close at 10:45
sharp. T. L. RIPPEY, Pastor.

GORE GETS APPLAUSE OF 10,000

Whistles Blow and Band Plays "Dix-
ie" When His Train Arrives.

Lawton, Okla., June 26.—While the
East the past winter was profuse in
its expressions of appreciation of
the marked qualities of statesman-
ship possessed by Oklahoma's junior
representative in the United States
senate it was left for the citizen-
ship of his home city to plan and
accomplish one of the greatest re-
ceptions ever tendered a statesman
in the Southwest. When the Okla-
homa City & Western train steamed in-
to the east yards at 5:45 this after-
noon every steam whistle in the
city was set to blowing and when it
reached the station 10,000 people,
headed by a band that played "Dixie"
for all there was in it, joined in one
great outburst of applause that was
prolonged until Senator Thomas Pry-
or Gore had entered an automobile
and had been borne to the front steps
of the municipal building where the
final program of the reception was
accomplished.

CLEVELAND LAID TO ETERNAL REST

Princeton, N. J., June 26.—Grover
Cleveland's body lies buried tonight
in the Cleveland plot in Princeton
cemetery.

At 6 o'clock, just as the sun was
sinking in the west, a distinguish-
ed company silently watched as the
body was lowered into the grave.
Then the simple burial service of the
Presbyterian church was read and
before the last carriages in the
cortege had driven up to the path
leading to the burial place, the ben-
ediction had been pronounced and
the members of the family, President
Roosevelt and others who had gath-
ered about the grave were leaving the
cemetery.

Many of the personal friends of
the dead statesman lingered about
the spot which is to mark his last
resting place and each in turn
was permitted to cast a shovelful of
earth into the grave.

Grover Cleveland as a Friend.

Mr. Benedict's outburst of sorrow over the death of Mr. Cleveland throws an interesting sidelight on the strictly personal qualities of the late ex-President.

Lofty and sour to them that loved him not,

But to those men that sought him sweet as summer.

was the testimonial of the kindly chronicler, Griffith, to the character of Cardinal Woolsey. This tribute would fit Mr. Cleveland, probably only approximately, as he was neither "lofty" nor "sour" nor yet saccharine in his manifestations of regard, even to those who sought him.

In Grover Cleveland Mr. E. C. Benedict, who was the ex-President's most intimate associate, found those truly endearing qualities which are inseparable from profoundly sincere natures, but protestations to which emotional and oft-times superficial persons are given. It was quite in harmony with the sturdy and serious fiber of Mr. Cleveland and with his deeply earnest conceptions of all of the relationships of life to give freely of what was best in himself only to those whom he regarded as

gifted with a complete understanding of such an offering.

To a man like Grover Cleveland there is a sanctity about friendship which forbids such treatment of it as to cause it to appear idle or gratuitous. And it is this high conception of friendship which contributes to it a value and a meaning that do not attach to more ready and casual affections. It makes it as precious as the chosen friends of Mr. Cleveland found it.—Kansas City Star

First Baptist Church.

At the First Baptist church tomorrow the regular services will be

held as usual. Special attention is called to the fact that the Sunday school will begin at 9:45 instead of 10 as formerly. Preaching by the pastor at 11 a. m. and 8:30 p. m. B. Y. P. U. at 4 p. m. Every body is invited to attend all of these meetings T. B. HARRELL, Pastor.

Don't Get Slipped Up On.

If you should happen to not awake Sunday morning until 9 o'clock you are apt to think that it is yet before day, on account of the eclipse of the sun occurring at that time, and you are liable to sleep until high noon for it will be pretty dark until that late. It would be a good thing if a lot of Ada people who never go to church would get real scared and think the end of time was nigh, and on account of this awful thought, surprise the public and go to Sunday school and church one time in their life.

ROBBED REDS OF LAND.

So Says Representative of Interior Department Here.

Oklahoma City, June 26.—"White gratters, and unmitigated scoundrels, for considerations of \$25 to \$100, have secured titles from Indians to lands worth many thousands of dollars. That's why agents have been appointed to advise the Indians."

So says Judge J. H. Shephard of the interior department at Washington, who was at the Threadgill hotel yesterday.

With Judge Shephard were Judge G. W. Woodruff and Jesse E. Wilson the interior department; Commissioner J. George Wright of Muskogee and United States District Attorney John Ebry, Guthrie. They were here to confer in regard to the Kickapoo land suits and the removal of restrictions on Indian lands.

Judge Shephard, Mr. Ebry and Commissioner Wright left last evening for points in Oklahoma, while the others went to Washington.

"Western Oklahoma does not realize as does eastern Oklahoma the enormity of the frauds perpetrated in Indian lands," said Judge Shephard. "To adjust titles properly it will be necessary to hear not less than 3,000 separate actions in court."

"Under the treaty, every Indian received an allotment and was guaranteed by the government absolute ownership for 21 years. Various legislation since has been enacted, removing these restrictions by degrees until the last act removed it entirely from the property of the Chickasaws, Cherokees, Choctaws, Creeks and others.

The Kickapoo land suits brought in December last, number 54. They later

were transferred to the Oklahoma City division of the federal court and will be heard at the next term.

COURT RULE AFFECTS THOUSANDS OF ACRES

Guthrie, Okla., June 26.—That the McCumber act, extending the restrictions on the allotments of full blood Indians applies only to the land of the original allottees and not to that of the heirs, is the ruling of the supreme court, contained in an opinion handed down today by Associate Justice Hayes in the case of The Western Investment and the Coweta Investment companies vs. Marchie Tiger, a full blood Creek Indian. The ruling of the court for the western district of Indian Territory is reversed.

The titles to thousands of acres of land in the Creek nation are affected by the opinion. Transfers which have been made by the full bloods since August 8, 1907, when the five-year extension made by the supplemental agreement to the Creek treaty expired are legal. The heirs of "dead" claimants can dispose of their allotments without the approval of the secretary of the interior.

Tiger disposed of his land on August 8, 1907, or five years to the day after the approval of the supplemental agreement by President Roosevelt. It was contended that the congressional bill of April 26, 1906, known as the McCumber act, applied to the Creek full bloods, taking precedence over the previous agreement. Justice Hayes takes the position that it does not and quotes from the law itself in supporting an unusually lucid interpretation.

Bro. D. J. Austin returned today from Sulphur.

Otis Weaver is looking after business interest in Guthrie.

Liquor Den Found.

Friday night about mid-night Walter Goyen and Bill Adare trailed a man and his liquor from the Katy yards to west Main street and while the gentleman was carefully putting the pint bottles away in the shooting gallery, the two deputies swooped down upon him whiskey and man. and found that there was in his possession 47 pint bottles of sealed whiskey. E. E. Davis was arrested and released this morning under a \$750 bond.

COL. ED BRENTS LANDS

The Ada Man Receives Message Announcing Nice Job.

Ed Brents, for a long time office deputy marshal for the 16th recording district and later deputy at Muskogee, has received a message from W. E. Johnson, chief special officer for the U. S. under the direction of the Interior Department at Salt Lake City as follows: "Your appointment approved, enter on duty July 1st. Await letter." Ed seemed to be in a good humor on account of the "killing" but would not state what the emoluments would be, except that it was the best job he ever had. Mr. Brents' territory will be in the northwest, Montana, North and South Dakota, Utah, etc. The only regrettable feature is that he will be kept almost continually away from his family who will remain in Ada.

Negroes to Meet at Denver.

Springfield, Ill., June 26.—Colored voters of the United States, who are antagonistic to the candidacy of W. H. Taft, republican nominee for president, will hold a National conference at Denver on Tuesday, July 7, the day the democratic national convention opens. The purpose of the gathering, as stated in the call, is to "consider their political affiliations, and conditions, and develop plans to change the political complexion of states wherein the negro vote is the balance of power."

They will also memorialize the democratic convention.

"To declare against degrading a soldier of the United States Army without the preliminary of a trial, and pronounce for a strict adherence to the constitution and all its amendments, discuss the feasibility of nominating a candidate for president on the civil liberty party ticket, or vote direct for the Denver nominee and issue an address to the colored citizens of the nation."

TENNESSEE CAMPAIGN IS CLOSED

Large Crowds Attend Local Option and Prohibition Meetings Held in Nashville.

Nashville, Tenn., June 26.—The fiercest political campaign that Tennesseans have ever witnessed closed tonight, when Gov. Patterson, for local option, spoke before a great crowd on the public square, while Ex-Senator E. W. Carmack, for prohibition, who had been making speeches here for two days, addressed almost as large a crowd in the auditorium. The enthusiasm of each crowd was marked, nothing like it having ever been seen in this city. No republican candidates in Tennessee have ever been so bitterly assailed as Carmack and Patterson have assailed each other.

The prediction is being freely made that the republican candidate for governor will defeat either Carmack or Patterson.

Indications point to the nomination of Gov. Patterson, but his friends are apprehensive of the effect of the women and children at the polls in the larger counties.

John W. Gaines and Joseph W. Byrns, candidates for congress in the sixth district, will also settle their contest tomorrow. Byrns looks to be the winner.

Johnson's Men Engage Quarters.

Denver, Colo., June 26.—A bomb-shell burst in the democratic national headquarters this morning when it was stated that Gov. John A. Johnson of Minnesota would arrive next week and open headquarters, a most unusual thing for a presidential candidate to do. Frederick Lynch, his campaign manager, telegraphed to the Albany Hotel to reserve every room available for Johnson's headquarters to be opened under his charge July 1.

Johnson's friends claim 362 votes on the first ballot.

The National committeemen who have arrived so far have been giving it out cold that Johnson has folded his tents and stolen back to his Minnesota farm.

PAYING PARTY IS NOW AT ARDMORE.

Ardmore, Okla., June 25.—The Indian agency payment party, consisting of a force of nine, is here paying off the Choctaw and Chickasaw Indians pro rata amounts due them from townsite sales. Every Indian on the roll is receiving \$20 per capita. The other two payments were \$40 and \$35, respectively. In all probability about \$25,000 will be paid out in this section.

SENATOR GORE WILL SPEAK FOR BRYAN

Guthrie, Okla., June 25.—United States Senator Gore has accepted an invitation from William Jennings Bryan to speak at a banquet to be given in Lincoln, Neb., July 3. He will also probably make a Fourth of July address in Nebraska.

COMFORTING WORDS.

Many a Household Will Find Them So
To have the pains and aches of a bad back removed; to be entirely free from annoying dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of readers.

W. H. C. Brown, well known throughout Guthrie, general agent for the Ottawa Star Nursery Co., and residing at 514 Vilas Street, Guthrie, Okla., says: "I have been a great sufferer from kidney disease for a period of seven or eight years. Several years ago I almost died from what is known as stone or gravel of the bladder. This left my kidneys in a weak condition and ever since I have been bothered almost constantly with a lame and aching back, not bad enough to make me take to my bed, but sufficient to prevent me from attending to my work. As if backache was not enough torment and misery there existed a trouble with the kidney secretions. The action of those organs was altogether too frequent, especially at night, and the secretions were often accompanied with pain. I was treated by physicians and tried one remedy after another, but all failed to give me even temporary relief, and at the time that Doan's Kidney Pills first came to my attention I was not long for this world. It is impossible for me to describe my condition at the time that I went for my first box. That box improved my condition so much that I used a second and a third. When I had taken three boxes the trouble was ended and I considered myself cured. I feel better than I have for twenty years. I never hesitate to recommend Doan's Kidney Pills, for I claim that they were the means of saving my life."

The Secret of Happiness.

It is just as impossible for a person to reach the normal state of harmony while he is practicing selfish, grasping aims, as it is to produce harmony in an orchestra with instruments that are all jangled and out of tune. To be happy, we must be in tune with the infinite within us, in harmony with our better selves. There is no way to get around it. It is silly for a man to say that this is "good-goody" philosophy. It is scientific truth. The idea that we can practice wrong in our vocations, in our dealings with men, or in our pleasures, and then periodically seek forgiveness in our prayers or through our churches—the idea that a man can do wrong and be forgiven without remedying the wrong, or without forsaking the sin, says Orison Swett Marden, in Success Magazine, has done more harm than almost any other thing in civilization. A clear conscience, a clean life, the elimination of selfishness, jealousy, envy and hatred, are necessary to all high enjoyment. One trouble with many of us is that we try to make happiness too complicated an affair. But happiness really flees from complication, ceremony, and pretense. Nature has fixed her everlasting edict against complicated living. You can never find pleasure; it must be natural, and come from sane living.

Appeal to authority may be so slavish or so trivial as to dishonor the authority and make the appellant ridiculous. Did Lincoln approve of reducing the tariff on wool, and if wood-pulp had been in use in his day, would he have thought of the tariff on that? What was Paul Jones' view of the need of an American naval station in the Yappi Yappi islands? Would Thomas Jefferson have sanctioned a course in Celtic in an American university? What would Jackson have thought of the Aldrich currency bill? These questions are no more absurd than many which are seriously discussed in journals and assembly halls. Great men are great precisely because they act in obedience to principles which are too deep and broad to bind the answers to specific questions which arise in after times.

The practice of exchanging American and German professorships continues, apparently to the complete satisfaction of both parties to the arrangement. Columbia university has named for the Theodore Roosevelt Professorship of American Economic and Political Institutions in the University of Berlin for 1909-1910 Dr. Benjamin Ide Wheeler, president of the University of California. Dr. Albrecht F. K. Penck, privy counselor and director of the Geographical Institute of the University of Berlin, will fill the Kaiser Wilhelm professorship at Columbia for the corresponding period. Thus two eminent scholars will aid in bringing the nations into closer knowledge of each other's political and social characteristics.

It is a fine sign of the times that in the churches of America the question of citizenship has the front place. The preachers of all denominations are emphasizing the point of active, aggressive morality. They are making it very uncomfortable for the man who has different codes for business, politics and Sunday. They are showing the glaring weakness of any religion that finds excuses for its members because they think the preaching of Sunday should not be closely applied to the practices of Monday. A nation's safety is in its clean, moral, honest citizenship, remarks the Baltimore American. And the churches are doing a noble work in educating and stimulating the civic conscience.

A Chinese newspaper, edited by a Chinaman, but printed in English, has been started in Peking. It is called Chinese Public Opinion, and the mission of the publication is to give expression to Chinese sentiment with regard to the empire's international position. Possibly this innovation may also have an important significance as indicating the trend which, it is alleged, exists in China towards the adoption of English as the common language. There are now more than 50 dialects spoken in China, and 40,000 different types must be used in printing. The Celestials are sorely in need of a general and more convenient language.

In Norway, when husband and wife travel together, the wife pays only half-fare. This is a practical device to keep families together, and to encourage selfish man to take his wife with him when he goes on an interesting journey.

A Chicago contemporary says the girls of that town are all "poems." This gives the uncharitable outsider the opportunity to say something about the long feet of the Chicago "poem."

WITHOL: A THOUGHT OF FEAR.

Behavior of American Troops in the Face of Awful Death.

One of the most remarkable events in the annals of American arms occurred at Fort Crook, Neb., the other day when a tornado struck the place. As the dispatches tell the story: "When the officers realized that a tornado had struck the post 600 men of the Sixth regiment were brought to battalion formation and in the midst of flying slate roofs and other debris they were marched across the parade ground to the substantial buildings, where they were put 'at rest,' and took to the cellars. The fort was damaged to the extent of \$100,000."

History and fiction alike have dwelt upon the dauntless spirit of men who have manifested their willingness to "charge the gates of hell or scale the heights of heaven," but doubtless no better illustration of this spirit was ever given than when this devoted band of American soldiers at Fort Crook formed ranks to "do or die" together in the face of a resistless tornado, says the Kansas City Journal.

Those who have never viewed the fury of one of these terrible outbursts of the angry elements cannot imagine the dreadful reality of the scene, with the heavens blacker than night, the darkness intensified by blinding flashes of lightning, the terrors of the storm multiplied by the terrific crashes of heaven's artillery, and the air filled with swirling clouds which hide all else but the awful figure of death, the ghastly funnel-shaped cloud which makes gigantic leaps along the ground, uprooting trees and whirling houses, animals and human beings through the air on the wings of the death-dealing wind.

It is a sight to appal the stoutest heart and to cause the human mind to realize the utter impotence of man in the presence of angry nature. The charge of the Six Hundred at Balaklava was a trivial incident of military duty compared with the steadfast discipline of the 600 American soldiers at Fort Crook, who coolly formed in line and braved the tornado's fury as though it were a matter of mere routine duty.

Metallic Mirrors.

The production of metallic mirrors for searchlights and other such uses is now in demand in Europe. Those made of glass, now used, are objectionable owing to their liability to fracture when the guns are fired on ships, and to the silencing on the mirrors blistering and separating from the glass. A new metallic mirror, made partly by electro-deposition, is being introduced. The mirror has a surface composed of alternate bands or rings of gold and white reflecting surfaces. It is claimed that this mirror gives a more penetrating beam of light, both at night and in foggy weather; that objects on which such a beam of light is thrown stand out in greater relief than in a light thrown from a silver white metal mirror, and that the intensity of the light is so great that it is impossible to aim accurately at the projector. Another advantage claimed for the new mirrors is that they are not fractured by concussion, and that even when penetrated by bullets the area of distortion is very small.

German Public Schools.

According to the last official reports there are 61,198 public schools in Germany, attended by 9,779,356 pupils, or 94 per cent. of all German children of school age, leaving only six per cent. of all other schools, including home training. Since 1901 the school attendance shows an increase of 9.1 per cent. During the same time male teachers show an increase of 10.6 per cent. and female teachers an increase of 30.5 per cent. The annual average cost per pupil for public school education has increased from \$11.20 in 1901 to \$12.86 in 1906. The average number of pupils to each teacher was 58 in 1906, some having as high as 85 pupils and others as low as 33.

Making Electrical Engineers.

In the great shops of a well-known electrical company are some 300 young men, clad in workmen's garments, assembling small apparatus, and testing dynamos, transformers, railway motors and lighting appliances of every description.

These men have come from universities, colleges and technical schools, not only in this country, but in all quarters of the civilized world. And they are supplementing the theories upon which they have spent years of study with the admirable practice to be obtained in the finely-equipped shops and the variety of apparatus manufactured. — Scientific American.

Feet.

The French foot is narrow and long. The Spanish foot is small and elegantly curved. That of the Arab is proverbial for its high arch. The foot of the Scotch is high and thick; that of the Irish flat and square; the English, short and fleshy. When Athens was in her zenith, the Grecian foot was the most perfectly formed and exactly proportioned of any of the human race. Swedes, Norwegians and Germans have the largest feet. Americans the smallest.

FIVE MONTHS IN HOSPITAL.

Discharged Because Doctors Could Not Cure.

Levi P. Brockway, S. Second Ave., Anoka, Minn., says: "After lying for five months in a hospital I was discharged as incurable, and given only six months to live. My heart was affected, I had smothering spells and sometimes fell unconscious. I got so I couldn't use my arms, my eyesight was impaired and the kidney secretions were badly disordered. I was completely worn out and discouraged when I began using Doan's Kidney Pills, but they went right to the cause of the trouble and did their work well. I have been feeling well ever since."

TORTURED SIX MONTHS

By Terrible Itching Eczema—Baby's Suffering Was Terrible—Soon Entirely Cured by Cuticura.

"Eczema appeared on my son's face. We went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor for four months, the baby never getting any better. His hand and legs had big sores on them and the poor little fellow suffered so terribly that he could not sleep. After he had suffered six months we tried a set of the Cuticura Remedies and the first treatment let him sleep and rest well; in one week the sores were gone and in two months he had a clear face. Now he is two years and has never had eczema again. Mrs. Louis Leck, R. F. D. 3, San Antonio, Tex., Apr. 15, 1907."

The Villain's Escape.

In an amateur play a fugitive from justice was supposed to have escaped from his pursuers by concealing himself under the table. The table was small and the terrified fugitive somewhat lengthy.

The commander of the pursuing party rushed on the stage and fell over the legs of the man he was searching for.

Picking himself up and ludicrously rubbing his shins, he convulsed his audience by exclaiming in true dramatic style: "Ha! ha! The dastardly villain has eluded us again."

They Should.

"My honest conviction, based upon my own experience and that of my friends, is that 'Hunt's Cure' will cure a larger per cent of skin troubles, especially of an itching variety, than any other remedy. Certainly those afflicted with any form of itch should try it."

MEXICANS REVOLT; FIFTY DEAD

BATTLE FOUGHT ACROSS TEXAS BORDER FROM DEL RIO AND LONE STAR STATE.

CABINET MEETING IS CALLED

Revolutionists Attack Town, Burning Officers' Quarters, Making Desperate Assault on Custom House and Capture Horses.

El Paso, Tex., June 26.—Mexican revolutionists this morning attacked the town of Las Vacas, across the river from Del Rio, Tex., burned to the ground the officers' quarters and made a desperate assault upon the custom house. In the battle that followed 5,000 shots were exchanged. The casualties, according to figures furnished by the Mexican authorities, will total half a hundred.

The attacking band cut all telegraph and telephone wires, captured horses belonging to the Mexican cavalry and were repulsed only after a hard battle. More serious trouble is expected before morning.

Mexican Uprising May Be General.

San Antonio, Tex., June 26.—Las Vacas, directly across the Rio Grande from the city of Del Rio, Tex., this morning witnessed the second battle of what may be the opening of a general uprising against the administration of President Diaz. The revolution seemingly is not the work of a band of irresponsible desperadoes, for organization and leadership are shown in the fact that the strategy of warfare has been used and the entire border country between Del Rio and C. P. Diaz, in the state of Coahuila, is cut off from communication. All wires on the Mexico side leading across the river have been cut.

At 5:30 this morning a band of revolutionists numbering about 150 silently stole upon the camp of the Mexican cavalry at Las Vacas and stole all of the horses, as well as making a raid upon the ammunition wagons. They were discovered just as they were about to leave and a pitched battle took place.

Party Takes Position on Hills Near Town.

More than 3,000 shots were fired and several men were killed. One wounded man made his way across the river to Del Rio, but he refuses to say whether he was with the government forces or the revolutionists. One house was burned during the attack and the firing continued until 10:30 a. m. when the attacking party withdrew and took a position in the hills back of Las Vacas.

REVIVAL IN NORTH ADA

Booming—House Full Last Night. More Conversions.

Evangelist Jordan was greeted by a house full of eager hearers last night. A great sermon was preached and there were more conversions at the close of the service. The sermon was one of power—a striking denunciation of the man who is trying to run away from God and His utter inability to do so. Great and powerful conviction settled down upon the hearts of men and many had to leave the church to keep from coming forward. There were many requests for prayer and after the audience were dismissed the altar service ran far into the night. We are confidently expecting one of the biggest days religiously tomorrow that Ada has ever experienced. Following are the announcements for tomorrow:

Song service will begin at 10:30 and preaching promptly at 11 o'clock. If you expect to hear the sermon be at the church by 11 a. m. sharp. Preaching for the young people at 2 o'clock p. m. Preaching at 8:30 p. m. Come early, get a good seat and enjoy the services.

No preaching at the First Methodist church tomorrow morning or evening. The pastor earnestly requests his entire congregation to go to the north side for both services. Sunday school will close at 10:45 sharp. T. L. RIPPEY, Pastor.

GORE GETS APPLAUSE OF 10,000

Whistles Blow and Band Plays "Dixie" When His Train Arrives.

Lawton, Okla., June 26.—While the East the past winter was profuse in its expressions of appreciation of the marked qualities of statesmanship possessed by Oklahoma's junior representative in the United States senate it was left for the citizenship of his home city to plan and accomplish one of the greatest receptions ever tendered a statesman in the Southwest. When the Oklahoma City & Western train steamed into the east yards at 5:45 this afternoon every steam whistle in the city was set to blowing and when it reached the station 10,000 people, headed by a band that played "Dixie" for all there was in it, joined in one great outburst of applause that was prolonged until Senator Thomas Pryor Gore had entered an automobile and had been borne to the front steps of the municipal building where the final program of the reception was accomplished.

CLEVELAND LAID TO

ETERNAL REST

Princeton, N. J., June 26.—Grover Cleveland's body lies buried tonight in the Cleveland plot in Princeton cemetery.

At 6 o'clock, just as the sun was sinking in the west, a distinguished company silently watched as the body was lowered into the grave. Then the simple burial service of the Presbyterian church was read and before the last carriage in the cortege had driven up to the path leading to the burial place, the benediction had been pronounced and the members of the family, President Roosevelt and others who had gathered about the grave were leaving the cemetery.

Many of the personal friends of the dead statesman lingered about the spot which is to mark his last resting place and each in turn was permitted to cast a shovelful of earth into the grave.

Grover Cleveland as a Friend.
Mr. Benedict's outburst of sorrow over the death of Mr. Cleveland throws an interesting sidelight on the strictly personal qualities of the late ex-President.
Lofly and so on to them that loved him not,
But to those men that sought him sweet as summer
was the testimony of the kindly chronicler, brother, as his character of Cardinal Wolsey. The tribute would fit Mr. Cleveland, probably only approximately, as he was neither "lofty" nor "lovely" for yet such a shine in his manifestations of regard, even to those who sought him.
In Grover Cleveland Mr. E. C. Benedict, who was the ex-President's most intimate as brother, found those truly endearing qualities which are inseparable from profoundly sincere natures, but prepossessions to which emotional and otherwise superficial persons are given. It was more in harmony with the sturdy and serious fiber of Mr. Cleveland and with his deeply earnest conceptions of all of the relationships of life to give freely of what was best in himself only to those whom he regarded as

gifted with a complete understanding of such an offering.
To a man like Grover Cleveland there is a sanctity about friendship which forbids such treatment of it as to cause it to appear idle or gratuitous. And it is this high conception of friendship which contributes to it a value and a meaning that do not attach to more ready and casual affections. It makes it as precious as the chosen friends of Mr. Cleveland found it.—Kansas City Star

Don't Get Slipped Up On.
If you should happen to not awake Sunday morning until 9 o'clock you are apt to think that it is yet before day, on account of the eclipse of the sun occurring at that time, and you are liable to sleep until high noon for it will be pretty dark until that late. It would be a good thing if a lot of Ada people who never go to church would get real scared and think the end of time was nigh, and on account of this awful thought, surprise the public and go to Sunday school and church one time in their life.

ROBBED REDS OF LAND.
So Says Representative of Interior Department Here.

Oklahoma City, June 26.—"White grafters and unmitigated scoundrels, for considerations of \$25 to \$100, have secured titles from Indians to lands worth many thousands of dollars. That's why agents have been appointed to advise the Indians."
So says Judge J. H. Shephard of the interior department at Washington, who was at the Threadgill hotel yesterday.
With Judge Shephard were Judge G. W. Woodruff and Jesse E. Wilson the interior department Commissioner J. George Wright of Muskogee and United States District Attorney John Elmy, Guthrie. They were here to confer in regard to the Kickapoo land suits and the removal of restrictions on Indian lands.
Judge Shephard, Mr. Elmy and Commissioner Wright left last evening for points in Oklahoma, while the others went to Washington.
"Western Oklahoma does not realize as does eastern Oklahoma the enormity of the frauds perpetrated in Indian lands," said Judge Shephard. "To adjust titles properly it will be necessary to hear not less than 3,000 separate actions in court."
"Under the treaty, every Indian received an allotment and was guaranteed by the government absolute ownership for 21 years. Various legislation since has been enacted, removing these restrictions by degrees until the last act removed it entirely from the property of the Chickasaws, Cherokees, Choctaws, Creeks and others.
The Kickapoo land suits brought in December last, number 54. They later

were transferred to the Oklahoma City division of the federal court and will be heard at the next term.

COURT RULE AFFECTS THOUSANDS OF ACRES

Guthrie, Okla., June 26.—That the McCumber act, extending the restrictions on the allotments of full blood Indians applies only to the land of the original allottees and not to that of the heirs, is the ruling of the supreme court, contained in an opinion handed down today by Associate Justice Hayes in the case of The Western Investment and the Coweta Investment companies vs. Marchie Tiger, a full blood Creek Indian. The ruling of the court for the western district of Indian Territory is reversed.

The titles to thousands of acres of land in the Creek nation are affected by the opinion. Transfers which have been made by the full bloods since August 8, 1907, when the five-year extension made by the supplemental agreement to the Creek treaty expired are legal. The heirs of "dead" chiefs can dispose of their allotments without the approval of the secretary of the interior.

Tiger disposed of his land on August 8, 1907, or five years to the day after the approval of the supplemental agreement by President Roosevelt. It was contended that the congressional bill of April 26, 1906, known as the McCumber act, applied to the Creek full bloods, taking precedence over the previous agreement. Justice Hayes takes the position that it does not and quotes from the law itself in supporting an unusually lucid interpretation.

Negroes to Meet at Denver.

Springfield, Ill., June 26.—Colored
voters of the United States, who are
antagonistic to the candidacy of W.
H. Taft, republican nominee for pres-
ident, will hold a National conference
at Denver on Tuesday, July 7, the
day the democratic national conven-
tion opens. The purpose of the gather-
ing as stated in the call, is to
"consider their political affiliations,
and conditions, and develop plans to
change the political complexion of
states wherein the negro vote is the
balance of power."

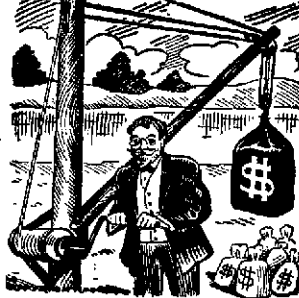

They will also memorialize the
democratic convention.

"To declare against degrading a sol-
dier of the United States Army with-
out the preliminary of a trial, and
pronounce for a strict adherence to
the constitution and all its amend-
ments, discuss the feasibility of nom-
inating a candidate for president
on the civil liberty party ticket,
or vote direct for the Denver nom-
inee and issue an address to the col-
ored citizens of the nation."

TENNESSEE CAMPAIGN IS CLOSED

Large Crowds Attend Local Option
and Prohibition Meetings Held
In Nashville.

Nashville, Tenn., June 26.—The
fiercest political campaign that Ten-
nesseans have ever witnessed closed
tonight, when Gov. Patterson, for lo-
cal option, spoke before a great
crowd on the public square, while
Ex-Senator E. W. Carmack, for pro-
hibition, who had been making
speeches here for two days, address-
ed almost as large a crowd in the
auditorium. The enthusiasm of each
crowd was marked, nothing like it
having ever been seen in this city.
No republican candidates in Ten-
nessee have ever been so bitterly as-
sailed as Carmack and Patterson have
assailed each other.

The prediction is being freely
made that the republican candidate
for governor will defeat either Car-
mack or Patterson.

Indications point to the nomination
of Gov. Patterson but his friends
are apprehensive of the effect of
the women and children at the polls
in the larger counties.

John W. Gaines and Joseph W.
Byrns, candidates for congress in the
sixth district, will also settle their
contest tomorrow, Byrns looks to be
the winner.

Johnson's Men Engage Quarters.

Denver, Colo., June 26.—A bomb-
shell burst in the democratic national
headquarters this morning when it
was stated that Gov. John A. John-
son of Minnesota would arrive next
week and open headquarters, a most
unusual thing for a presidential can-
didate to do. Frederick Lynch, his
campaign manager, telegraphed to
the Albany Hotel to reserve every
room available for Johnson's head-
quarters to be opened under his
charge July 1.

Johnson's friends claim 362 votes
on the first ballot.

The National committeemen who
have arrived so far have been giv-
ing it out cold that Johnson has
folded his tents and stolen back to
his Minnesota farm.

Guthrie, Okla., June 25.—United

COMFORTING WORDS.

Many a Household Will Find Them So.
To have the pains and aches of a
bad back removed; to be entirely free
from annoying dangerous urinary dis-
orders is enough to make any kidney
sufferer grateful. To tell how this
great change can be brought about
will prove comforting words to hun-
dreds of readers.

W. H. C. Brown, well known
throughout Guthrie, general agent for
the Ottawa Star Nursery Co., and
residing at 514 Villas Street, Guthrie,
Okla., says: "I have been a great suf-
ferer from kidney disease for a pe-
riod of seven or eight years. Several
years ago I almost died from what is
known as stone or gravel of the
bladder. This left my kidneys in a
weak condition and ever since I have
been bothered almost constantly with
a lame and aching back, not had
enough to make me take to my bed,
but sufficient to prevent me from at-
tending to my work. As if backache
was not enough torment and misery
there existed a trouble with the kid-
ney secretions. The action of those
organs was altogether too frequent,
especially at night, and the secretions
were often accompanied with pain. I
was treated by physicians and tried
one remedy after another, but all
failed to give me even temporary
relief, and at the time that Doan's
Kidney Pills first came to my at-
tention I was not long for this world.
It is impossible for me to describe
my condition at the time that I went
for my first box. That box improved
my condition so much that I used a
second and a third. When I had tak-
en three boxes the trouble was end-

THE SHOE MAN

It is just as impossible for a person to reach the normal state of harmony while he is practicing selfish, grasping aims, as it is to produce harmony in an orchestra with instruments that are all jangled and out of tune. To be happy, we must be in tune with the infinite within us, in harmony with our better selves. There is no way to get around it. It is silly for a man to say that this is "goody-goody" philosophy. It is scientific truth. The idea that we can practice wrong in our vocations, in our dealings with men, or in our pleasures, and then periodically seek forgiveness in our prayers or through our churches—the idea that a man can do wrong and be forgiven without remedying the wrong, or without forsaking the sin, says Orison Swett Marden, in *Success Magazine*, has done more harm than almost any other thing in civilization. A clear conscience, a clean life, the elimination of selfishness, jealousy, envy and hatred, are necessary to all high enjoyment. One trouble with many of us is that we try to make happiness too complicated an affair. But happiness really flees from complication, ceremony, and pretense. Nature has fixed her everlasting edict against complicated living. You can never be a pleasure; it must be natural, and come from sane living.

The practice of exchanging American and German professorships continues, apparently to the complete satisfaction of both parties to the arrangement. Columbia university has named for the Theodore Roosevelt professorship of American Economic and Political Institutions in the University of Berlin for 1909-1910 Dr. Benjamin Ide Wheeler, president of the University of California. Dr. Albrecht K. Penck, privy councillor and director of the Geographical Institute of the University of Berlin, will fill the Kaiser Wilhelm professorship at Columbia for the corresponding period. Thus two eminent scholars will aid in bringing the nations into closer knowledge of each other's political and social characteristics.

A Chinese newspaper, edited by a Chinaman, but printed in English, has just started in Peking. It is called Chinese Public Opinion, and the mission of the publication is to give expression to Chinese sentiment with regard to the empire's international position. Possibly this innovation may not have an important significance as indicating the trend which, it is alleged, exists in China towards the adoption of English as the common language. There are now more than 300 dialects spoken in China, and 40,000 different types must be used in printing. The Celestials are sorely in need of a general and more convenient language.

MEXICANS REVOLT; FIFTY DEAD

BATTLE FOUGHT ACROSS TEXAS BORDER FROM DEL RIO AND LONE STAR STATE.

CABINET MEETING IS CALLED

Revolutionists Attack Town, Burning Officers' Quarters, Making Desperate Assault on Custom House and Capture Horses.

El Paso, Tex., June 26.—Mexican revolutionists this morning attacked the town of Las Vacas, across the river from Del Rio, Tex., burned to the ground the officers' quarters and made a desperate assault upon the custom house. In the battle that followed 5,000 shots were exchanged. The casualties, according to figures furnished by the Mexican authorities, will total half a hundred.

The attacking band cut all telegraph and telephone wires, captured horses belonging to the Mexican cavalry and were repulsed only after a hard battle. More serious trouble is expected before morning.

Mexican Uprising May Be General.

San Antonio, Tex., June 26.—Las Vacas, directly across the Rio Grande from the city of Del Rio, Tex., this morning witnessed the second battle of what may be the opening of a general uprising against the administration of President Diaz. The revolution seemingly is not the work of a band of irresponsible desperadoes, for organization and leadership are shown in the fact that the strategy of warfare has been used and the entire border country between Del Rio and C. P. Diaz, in the state of Coahuila, is cut off from communication. All wires on the Mexico side leading across the river have been cut.

At 5:30 this morning a band of revolutionists numbering about 150 silently stole upon the camp of the Mexican cavalry at Las Vacas and stole all of the horses, as well as making a raid upon the ammunition wagons. They were discovered just as they were about to leave and a pitched battle took place.

Party Takes Position on Hills Near Town.

More than 3,000 shots were fired and several men were killed. One wounded man made his way across the river to Del Rio, but he refuses to say whether he was with the government forces or the revolutionists. One house was burned during the attack and the firing continued until 10:30 a. m. when the attacking party withdrew and took a position in the hills back of Las Vacas.

REVIVAL IN NORTH ADA

Booming—House Full Last Night. More Conversions.

Evangelist Jordan was greeted by a house full of eager hearers last night. A great sermon was preached and there were more conversions at the close of the service. The sermon was one of power—a striking denunciation of the man who is trying to run away from God and His utter inability to do so. Great and powerful conviction settled down upon the hearts of men and many had to leave the church to keep from coming forward. There were many requests for prayer and after the audience were dismissed the altar service ran far into the night. We are confidently expecting one of the biggest days religiously tomorrow that Ada has ever experienced. Following are the announcements for tomorrow:

Song service will begin at 10:30 and preaching promptly at 11 o'clock. If you expect to hear the sermon be at the church by 11 a. m. sharp. Preaching for the young people at 3 o'clock p. m. Preaching at 8:30 p. m. Come early, get a good seat and enjoy the services.

No preaching at the First Methodist church tomorrow morning or evening. The pastor earnestly requests his entire congregation to go to the north side for both services. Sunday school will close at 10:45 sharp. T. L. RIPPEY, Pastor.

GORE GETS APPLAUSE OF 10,000

Whistles Blow and Band Plays "Dixie" When His Train Arrives.

Lawton, Okla., June 26.—While the East the past winter was profuse in its expressions of appreciation of the marked qualities of statesmanship possessed by Oklahoma's junior representative in the United States senate it was left for the citizenship of his home city to plan and accomplish one of the greatest receptions ever tendered a statesman in the Southwest. When the Oklahoma City & Western train steamed into the east yards at 5:45 this afternoon every steam whistle in the city was set to blowing and when it reached the station 10,000 people, headed by a band that played "Dixie" for all there was in it, joined in one great outburst of applause that was prolonged until Senator Thomas Pryor Gore had entered an automobile and had been borne to the front steps of the municipal building where the final program of the reception was accomplished.

CLEVELAND LAID TO

ETERNAL REST

Princeton, N. J., June 26.—Grover Cleveland's body lies buried tonight in the Cleveland plot in Princeton cemetery.

At 6 o'clock, just as the sun was sinking in the west, a distinguished company silently watched as the body was lowered into the grave. Then the simple burial service of the Presbyterian church was read and before the last carriage in the cortege had driven up to the path leading to the burial place, the benediction had been pronounced and the members of the family, President Roosevelt and others who had gathered about the grave were leaving the cemetery.

Many of the personal friends of the dead statesman lingered about the spot which is to mark his last resting place and each in turn was permitted to cast a shovelful of earth into the grave.

Ed seemed to be in a good humor on account of the "killing" but would not state what the emoluments would be, except that it was the best job he ever had. Mr. Brents' territory will be in the northwest, Montana, North and South Dakota, Utah, etc. The only regrettable feature is that he will be kept almost continually away from his family who will remain in Ada.

Negroes to Meet at Denver.

Springfield, Ill. June 26.—Colored voters of the United States, who are antagonistic to the candidacy of W. H. Taft, republican nominee for president, will hold a National conference at Denver on Tuesday, July 7, the day the democratic national convention opens. The purpose of the gathering as stated in the call, is to "consider their political affiliations and conditions, and develop plans to change the political complexion of states wherein the negro vote is the balance of power."

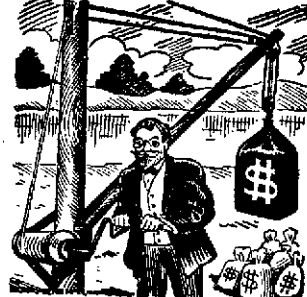

They will also memorialize the democratic convention.

"To declare against degrading a soldier of the United States Army without the preliminary of a trial, and pronounce for a strict adherence to the constitution and all its amendments, discuss the feasibility of nominating a candidate for president on the civil liberty party ticket, or vote direct for the Denver nominee and issue an address to the colored citizens of the nation."

TENNESSEE CAMPAIGN IS CLOSED

Large Crowds Attend Local Option and Prohibition Meetings Held in Nashville.

Nashville, Tenn. June 26.—The fiercest political campaign that Tennesseans have ever witnessed closed tonight, when Gov. Patterson, for local option, spoke before a great crowd on the public square, while Ex-Senator E. W. Carmack, for prohibition, who had been making speeches here for two days, addressed almost as large a crowd in the auditorium. The enthusiasm of each crowd was marked, nothing like it having ever been seen in this city. No republican candidates in Tennessee have ever been so bitterly assailed as Carmack and Patterson have assailed each other.

The prediction is being freely made that the republican candidate for governor will defeat either Carmack or Patterson.

Indications point to the nomination of Gov. Patterson but his friends are apprehensive of the effect of the women and children at the polls in the larger counties.

John W. Gaines and Joseph W. Byrns, candidates for congress in the sixth district, will also settle their contest tomorrow. Byrns looks to be the winner.

Johnson's Men Engage Quarters.

Denver, Colo., June 26.—A bombshell burst in the democratic national headquarters this morning when it was stated that Gov. John A. Johnson of Minnesota would arrive next week and open headquarters, a most unusual thing for a presidential candidate to do. Frederick Lynch, his campaign manager, telegraphed to the Albany Hotel to reserve every room available for Johnson's headquarters to be opened under his charge July 1.

Johnson's friends claim 362 votes on the first ballot.

The National committeemen who have arrived so far have been giving it out cold that Johnson has folded his tents and stolen back to his Minnesota farm.

PAYING PARTY IS NOW AT ARDMORE.

Ardmore, Okla., June 25.—The Indian agency payment party, consisting of a force of nine, is here paying off the Choctaw and Chickasaw Indians pro rata amounts due them from townsites sales. Every Indian on the roll is receiving \$20 per capita. The other two payments were \$40 and \$35, respectively. In all probability about \$25,000 will be paid out in this section.

SENATOR GORE WILL SPEAK FOR BRYAN

Guthrie, Okla., June 25.—United States Senator Gore has accepted an invitation from William Jennings Bryan to speak at a banquet to be given in Lincoln, Neb., July 3. He will also probably make a Fourth of July address in Nebraska.

COMFORTING WORDS.

Many a Household Will Find Them So.
To have the pains and aches of a bad back removed; to be entirely free from annoying dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of readers.

W. H. C. Brown, well known throughout Guthrie, general agent for the Ottawa Star Nursery Co., and residing at 514 Vilas Street, Guthrie, Okla., says: "I have been a great sufferer from kidney disease for a period of seven or eight years. Several years ago I almost died from what is known as stone or gravel of the bladder. This left my kidneys in a weak condition and ever since I have been bothered almost constantly with a lame and aching back, not bad enough to make me take to my bed, but sufficient to prevent me from attending to my work. As if backache was not enough torment and misery there existed a trouble with the kidney secretions. The action of those organs was altogether too frequent, especially at night, and the secretions were often accompanied with pain. I was treated by physicians and tried one remedy after another, but all failed to give me even temporary relief, and at the time that Doan's Kidney Pills first came to my attention I was not long for this world. It is impossible for me to describe my condition at the time that I went for my first box. That box improved my condition so much that I used a second and a third. When I had taken three boxes the trouble was ended and I considered myself cured. I feel better than I have for twenty years. I never hesitate to recommend Doan's Kidney Pills, for I claim that they were the means of saving my life."

The Secret of Happiness.

It is just as impossible for a person to reach the normal state of harmony while he is practicing selfish, grasping aims, as it is to produce harmony in an orchestra with instruments that are all jangled and out of tune. To be happy, we must be in tune with the infinite within us, in harmony with our better selves. There is no way to get around it. It is silly for a man to say that this is "good-goody" philosophy. The idea that we can practice wrong in our vocations, in our dealings with men, or in our pleasures, and then periodically seek forgiveness in our prayers or through our churches—the idea that a man can do wrong and be forgiven without remedying the wrong, or without forsaking the sin, says Orison Swett Marden, in Success Magazine, has done more harm than almost any other thing in civilization. A clear conscience, a clean life, the elimination of selfishness, jealousy, envy and hatred, are necessary to all high enjoyment. One trouble with many of us is that we try to make happiness too complicated an affair. But happiness really flows from complication, ceremony, and pretense. Nature has fixed her everlasting edict against complicated living. You can never have pleasure; it must be natural, and come from sane living.

Appeal to authority may be so slavish or so trivial as to dishonor the authority and make the appellant ridiculous. Did Lincoln approve of reducing the tariff on wool, and if wood-pulp had been in use in his day, what would he have thought of the tariff on that? What was Paul Jones' view of the need of an American naval station in the Yampi Yampi Islands? Would Thomas Jefferson have sanctioned a course in Celtic in an American university? What would Jackson have thought of the Aldrich currency bill? These questions are no more absurd than many which are seriously discussed in journals and assembly halls. Great men are great precisely because they act in obedience to principles which are too deep and broad to bind the answers to specific questions which arise in after times.

The practice of exchanging American and German professorships continues, apparently to the complete satisfaction of both parties to the arrangement. Columbia university has named for the Theodore Roosevelt Professorship of American Economic and Political Institutions in the University of Berlin for 1909-1910 Dr. Benjamin Ide Wheeler, president of the University of California. Dr. Albrecht F. K. Penck, privy councillor and director of the Geographical Institute of the University of Berlin, will fill the Kaiser Wilhelm professorship at Columbia for the corresponding period. Thus two eminent scholars will aid in bringing the nations into closer knowledge of each other's political and social characteristics.

It is a fine sign of the times that in the churches of America the question of citizenship has the front place. The preachers of all denominations are emphasizing the point of active, aggressive morality. They are making it very uncomfortable for the man who has different codes for business, politics and Sunday. They are showing the glaring weakness of any religion that finds excuses for its members because they think the preaching of Sunday should not be closely applied to the practices of Monday. A nation's safety is in its clean, moral, honest citizenship, remarks the Baltimore American. And the churches are doing a noble work in educating and stimulating the civic conscience.

A Chinese newspaper, edited by a Chinaman, but printed in English, has been started in Peking. It is called Chinese Public Opinion, and the mission of the publication is to give expression to Chinese sentiment with regard to the empire's international position. Possibly this innovation may also have an important significance as indicating the trend which, it is alleged, exists in China towards the adoption of English as the common language. There are now more than 50 dialects spoken in China, and 40,000 different types must be used in printing. The Celestials are sorely in need of a general and more convenient language.

In Norway, when husband and wife travel together, the wife pays only half-fare. This is a practical device to keep families together, and to encourage selfish man to take his wife with him when he goes on an interesting journey.

A Chicago contemporary says the girls of that town are all "poems." This gives the uncharitable outsider the opportunity to say something about the long feet of the Chicago "poem."

WITHOUT A THOUGHT OF FEAR.

Behavior of American Troops in the Face of Awful Death.

One of the most remarkable events in the annals of American arms occurred at Fort Crook, Neb., the other day when a tornado struck the place. As the dispatches tell the story: "When the officers realized that a tornado had struck the post 600 men of the Sixth regiment were brought to battalion formation and in the midst of flying slate roofs and other debris they were marched across the parade ground to the substantial buildings, where they were put 'at rest,' and took to the cellars. The fort was damaged to the extent of \$100,000."

History and fiction alike have dwelt upon the dauntless spirit of men who have manifested their willingness to "charge the gates of hell or scale the heights of heaven," but doubtless no better illustration of this spirit was ever given than when this devoted band of American soldiers at Fort Crook formed ranks to "do or die" together in the face of a resistless tornado, says the Kansas City Journal.

Those who have never viewed the fury of one of these terrible outbursts of the angry elements cannot imagine the dreadful reality of the scene, with the heavens blacker than night, the darkness intensified by blinding flashes of lightning, the terrors of the storm multiplied by the terrific crashes of heaven's artillery, and the air filled with swirling clouds which hide all else but the awful figure of death, the ghastly funnel-shaped cloud which makes gigantic leaps along the ground, uprooting trees and whirling houses, animals and human beings through the air on the wings of the death-dealing wind.

It is a sight to appal the stoutest heart and to cause the human mind to realize the utter impotence of man in the presence of angry nature. The charge of the Six Hundred at Balaklava was a trivial incident of military duty compared with the steadfast discipline of the 600 American soldiers at Fort Crook, who coolly formed in line and braved the tornado's fury as though it were a matter of mere routine duty.

Metallic Mirrors.

The production of metallic mirrors for searchlights and other such uses is now in demand in Europe. Those made of glass, now used, are objectionable owing to their liability to fracture when the guns are fired on ships, and to the silencing on the mirrors blistering and separating from the glass. A new metallic mirror, made partly by electro-deposition, is being introduced. The mirror has a surface composed of alternate bands or rings of gold and white reflecting surfaces. It is claimed that this mirror gives a more penetrating beam of light, both at night and in foggy weather; that objects on which such a beam of light is thrown stand out in greater relief than in a light thrown from a silver white metal mirror, and that the intensity of the light is so great that it is impossible to aim accurately at the projector. Another advantage claimed for the new mirrors is that they are not fractured by concussion, and that even when penetrated by bullets the area of distortion is very small.

German Public Schools.

According to the last official reports there are 61,138 public schools in Germany, attended by 9,779,356 pupils, or 94 per cent. of all German children of school age, leaving only six per cent. of all other schools, including home training. Since 1901 the school attendance shows an increase of 9.1 per cent. During the same time male teachers show an increase of 10.6 per cent. and female teachers an increase of 30.6 per cent. The annual average cost per pupil for public school education has increased from \$11.20 in 1901 to \$12.88 in 1906. The average number of pupils to each teacher was 58 in 1906, some having as high as 85 pupils and others as low as 33.

Making Electrical Engineers.

In the great shops of a well-known electrical company are some 300 young men, clad in workmen's garments, assembling small apparatus and testing dynamos, transformers, railway motors and lighting appliances of every description.

These men have come from universities, colleges and technical schools, not only in this country, but in all quarters of the civilized world. And they are supplementing the theories upon which they have spent years of study with the admirable practice to be obtained in the finely equipped shops and the variety of apparatus manufactured. — Scientific American.

Feet.

The French foot is narrow and long. The Spanish foot is small and elegantly curved. That of the Arab is proverbial for its high arch. The foot of the Scotch is high and thick; that of the Irish flat and square; the English, short and fleshy. When Athens was in her zenith, the Grecian foot was the most perfectly formed and exactly proportioned of any of the human race. Swedes, Norwegians and Germans have the largest feet. Americans the smallest.

Levi P. Brockway, S. Second Ave., Anoka, Minn., says: "After lying for five months in a hospital I was discharged because doctors could not cure. I had smothering spells and sometimes fell unconscious. I got so I couldn't use my arms, my eyesight was impaired and the kidney secretions were badly disordered. I was completely worn out and discouraged when I began using Doan's Kidney Pills, but they went right to the cause of the trouble and did their work well. I have been feeling well ever since."

TORTURED SIX MONTHS

By Terrible Itching Eczema—Baby's Suffering Was Terrible—Soon Entirely Cured by Cuticura.

"Eczema appeared on my son's face. We went to a doctor who treated him for three months. Then he was so bad that his face and head were nothing but one sore and his ears looked as if they were going to fall off, so we tried another doctor for four months, the baby never getting any better. His hand and legs had big sores on them and the poor little fellow suffered so terribly that he could not sleep. After he had suffered six months we tried a set of the Cuticura Remedies and the first treatment let him sleep and rest well; in one week the sores were gone and in two months he had a clear face. Now he is two years and has never had eczema again. Mrs. Louis Leck, R. F. D. 3, San Antonio, Tex., Apr. 15, 1907."

The Villain's Escape.

In an amateur play a fugitive from justice was supposed to have escaped from his pursuers by concealing himself under the table. The table was small and the terrified fugitive somewhat lengthy.

The commander of the pursuing party rushed on the stage and fell over the legs of the man he was searching for.

Picking himself up and ludicrously rubbing his shins, he convulsed his audience by exclaiming in true dramatic style:

"Ha! ha! The dastardly villain has eluded us again."

They Should.

"My honest conviction, based upon my own experience and that of my friends, is that 'Hunt's Cure' will cure a larger per cent. of skin troubles, especially of an itching variety, than any other remedy. Certainly those afflicted with any form of itch should try it."

J. O. MOORE, Atchison, Kan.

She Learned, Too.

"A man lives and learns," remarked the husband with some bitterness.

"Well, the school of experience does not bar coeds," retorted his wife.—Exchange.

On assured railroad 36 miles from San Antonio, Texas, the man of small means can buy a farm of from 10 to 640 acres and 2 town lots for \$210. Fine climate, good water, rich soil, \$19 per month. Write Dr. Chas. F. Simmons, San Antonio, Texas.

Entirely Sufficient.

Victim—How did you know I owned an automobile?

Using the Telephone.

It was the first time she had ever used a telephone and the drug clerk detected the fact by the nervous way in which she held the receiver.

"Dear me," she exclaimed, timidly, "why are all those slevellike holes in the mouthpiece?"

"They are there for a purpose," replied the drug clerk, solemnly.

"What purpose?"

"Why, so you can strain your voice."

And she was so embarrassed she forgot the number she was to call up.

A Household Necessity.

I would almost as soon think of running my farm without implements as without Hunt's Lightning Oil. Of all the liniments I have ever used, for both man and beast, it is the quickest in action and richest in results. For burns and fresh cuts it is absolutely wonderful. I regard it as a household necessity. Yours truly,

S. HARRISON, Koscusko, Miss.

A Willing Tool.

"Since young Jim De Peyster, who belongs to one of our best families, lost his money, he has gone into the social burglary business."

"Social burglary?"

"Yes; he chaperones rich parvenus."

"How is that burglary?"

"He helps them to break into society with a Jimmy."

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all the stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.
